

## System Overview

## FLEXIBLE PERFORMANCE.

Pure 20 stylishly captures the look of near-seamless frontages. The equal perimeter dimensional framework provides a perfect picture frame design, with no compromise on strength or performance.

The narrow frame allows for an incredible expanse of glass to be on show, creating a stunning flow of borrowed light throughout the building.

Ideal for clients who are looking to divide a room without disturbing space, Pure 20 can either be run from wall to wall, for a traditional glass partition, or — if acoustics are not a priority — use the system to create freestanding glass screens for an original look to separate areas.

Complement the Pure 20 system with a wide range of Planet doorsets, such as our micro-slim framed IsoTec or our high acoustic frameless IsoClear swing doors.

### 20mm Single Glazed Frameless Glass Partition System

**ACOUSTICS**  
up to Rw 40 dB

**MAX HEIGHT**  
up to 3000mm

**DEFLECTION**  
±0/15/25/40mm

**FRAMEWORK**  
20mm(w) x 27mm(h)

**CURVE RADIUS**  
min. 500mm

**GLASS THICKNESS**  
10mm to 15mm

**DOORS**  
Pivoting, sliding, solid timber, glazed

**GLASS JOINT TYPE**  
Clear butt jointed

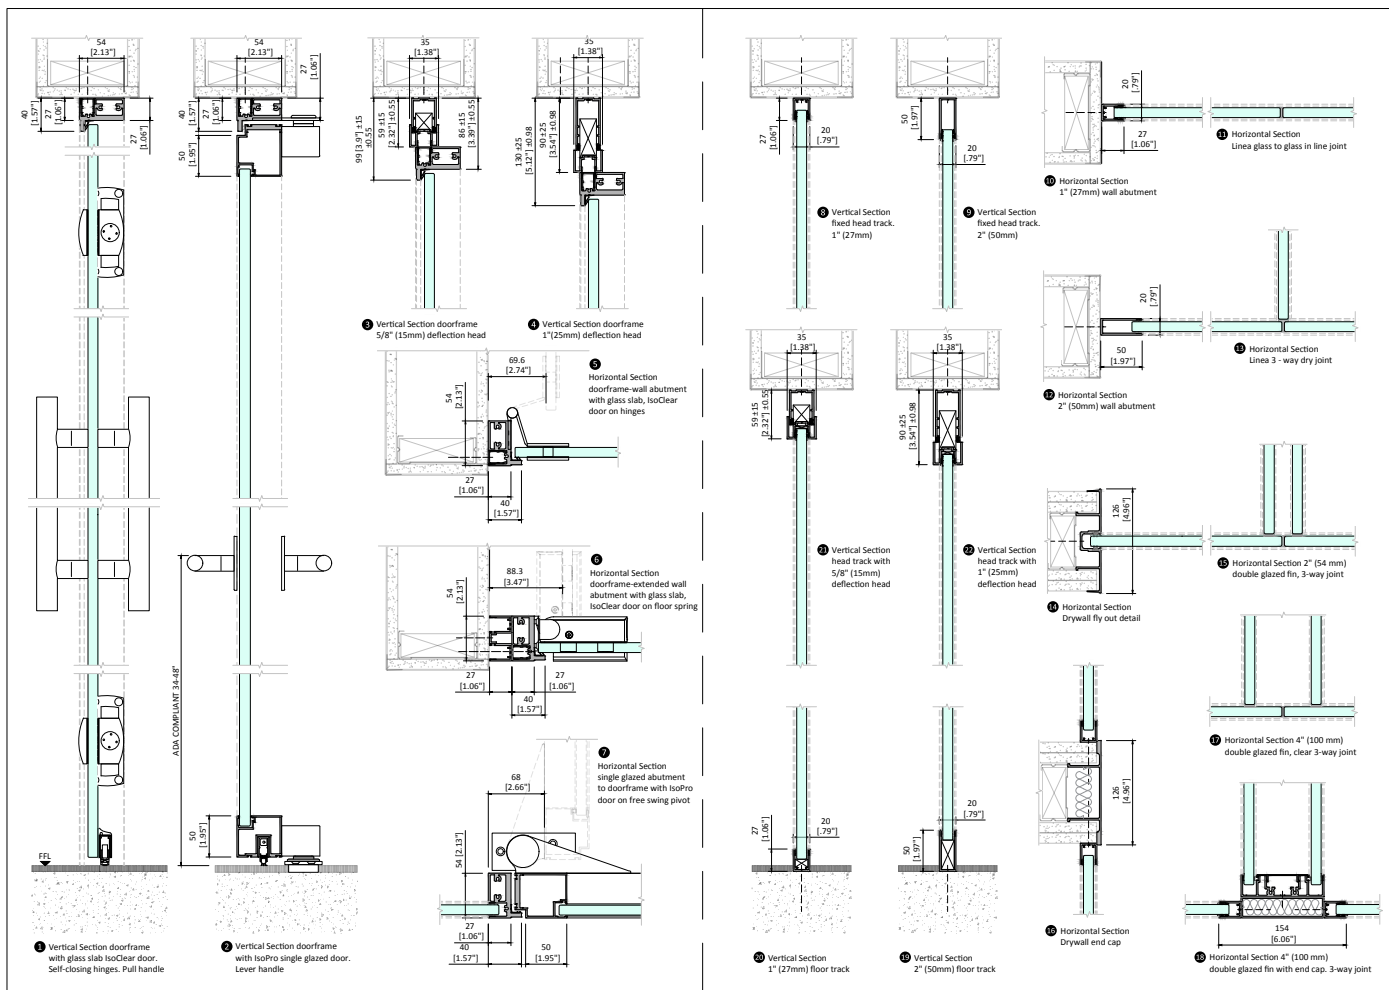

**FRAME MATERIAL**  
Aluminium

**AVAILABLE FINISHES**  
PPC powder coated, polished, anodised
